

We do WP with latest technologies as well as improved traditional methods.

**BASEMENT**

- ✚ Rough Kota Stone with fiber reinforcement.
- ✚ Guniting (traditional system)
- ✚ Acrylic base Cementitious coatings with injection grouting
- ✚ Crystalline base penetration Coatings.
- ✚ Fiber Reinforced coating with injection grouting.
- ✚ Cross laminated fiber reinforced bituminous membranes.

**SUNKEN PORTION**

- ✚ High build acrylic coatings with injection grouting.
- ✚ Crystalline base Penetration coatings.

**OVERDECK PLAZAS**

- ✚ Poly-olefin P.V.C membrane
- ✚ Acrylic coating with glass fibermesh
- ✚ APP & SBS membrane

**BALCONIES**

- ✚ With acrylic coating
- ✚ PVC membranes
- ✚ Bituminous membranes.

**TERRACE**

- ✚ Brickbat coba
- ✚ Flexible acrylic waterproofing coating
- ✚ PVC membrane ( anti-seismic)
- ✚ APP modified bituminous membrane

**TERRACE GARDEN**

- ✚ Flexible acrylic waterproofing coating
- ✚ PVC membrane ( anti-seismic)
- ✚ APP modified bituminous membrane

**SWIMMING POOLS**

- ✚ Swell sealants & injection grouting for construction joints
- ✚ Single component & two component acrylic elastomeric coatings
- ✚ Gravelled finish
- ✚ APP base Bituminous membrane
- ✚ High build solvent free epoxy lining
- ✚ Guniting & shotcreting with fibers

Where we require Waterproofing???

- Basement
- Sunken portions
- Underground & overhead tank
- Balconies
- Over deck plaza
- Terraces
- Terrace with insulation
- Sloping roofs
- Terrace having gardens & water bodies
- Swimming pools
- Waterproofing of in use structure
